

DISCUSSION - LEARNING MODULE

Verification of own learning

When: After the Conclusion Phase

Time estimated: 1 teaching session (1 hour)

Where the activity takes place: in the classrooms, outdoor

Method (how the students have to work): class discussion

Aim: presenting the results and the conclusions to audience

Learning objectives:

- To encourage critical thinking
- To understand deeply what has been learnt
- To acquire and use appropriate terminology depending on the style of their outcome
- To communicate the findings to general public

Learning techniques: Oral presentation

Necessary equipment: Seminar room, public, computers, internet, PowerPoint, video-making software, artistic product etc.

Procedure: The teachers could organize a public event open to parents, stakeholders, students and teachers where the students will present the project's outcomes.
